PROFILE

As a Medical Lab Specialist with experience in multiple hospitals, I have made significant contributions to the improvement of lab processes and the enhancement of team qualifications. I conducted a thorough analytical study of job systems and provided valuable tips for development, resulting in time and cost savings, problem-solving, and overall process cycle improvement. I have strong communication skills and the ability to work effectively in a team. I am a quick learner and can handle pressure situations with ease. My future goal is to continue growing in my role as a Medical Lab Specialist and contribute to the field of healthcare.
